

## About Your Coach

### Mike McLoughlin LAA Coach

---

Started flying in the ATC on gliders and Chipmunks, soloing at 16 and apart from breaks for work and family commitments have been flying ever since. First LAA (PFA) aircraft owned was a Cessna 120 in 1988. Have flown various Permit types from Rans S-4 to Dornier Do-27 and C of A types from C-150 to light twins. Main interest now is in grass roots flying especially fixed wing microlights and trying to convince potential pilots (young and old) that they do not need to be wealthy to fly and/or own a plane.
