

About Your Coach

Steve Moody LAA Coach

Steve Moody and Dave Roberts following the successful test flight

I'm a long standing Instructor having done my original AFI rating in 1980. I've instructed in some form or another since then, currently do so on a CRI. I have quite a wide experience in many light aircraft, mostly Permit types. I have a share in a Jodel kept at Wellesbourne (tarmac runway) and own a Tailwind which I keep on a 600 m grass strip near Lichfield.

I'm a full Coach and have been part of the Coaching Scheme since it's inception. I live in Leamington Spa, so close to Wellesbourne, but I'm happy to travel to most midlands locations to fly, having done so from Henstridge to Sleaf, Shobdon to Leicester in recent years. Given the need I will consider travel further afield.

I'm retired from driving an Airbus autopilot, so I can be available most of the time. When I'm not flying I'm building a Sonex.

I also do a fair amount of new aircraft test flying for Permit issue, will also do flight test of new systems such as VP props, new radio set up, autopilot installation etc.
