

About Your LAA Coach

Charlie Huke

Sixteen years in the RAF, a decade as a civilian instructor at the Empire Test Pilot School and latterly commercial Charlie has flown some 220 odd types of aircraft.

The majority of these types are LAA machines, especially vintage, on which Charlie has well over three thousand hours (in addition to significant professional experience).

An LAA coach since 1995, Charlie has also been an inspector and LAA test pilot for just as long and has owned some 25 aircraft. Consequently, he is able to assist with much more than simply flying instruction.

A full CAA FI, Charlie keeps his aircraft on a private strip near Salisbury, but is very happy to travel to assist LAA members.
