## **GROUND EXAMINING**

The LAA as a Declared Training Organisation is entitled to provide PPL ground examinations to its members, although we do not intend to provide initial training for licence issue except in exceptional circumstances.

The LAA's Examination Centre is registered as its Headquarters at Turweston, where we can administer these on-line examinations to members who need them. Candidates must register their intention to take examinations at least 7 days in advance to the CAA Portal. Some of our Coaches are ground examiners and can act as examination invigilators.

However, the Head of Training must certify that candidates for PART-FCL examinations have completed the necessary training and achieved a satisfactory standard of knowledge before being submitted for the examinations. Any member wishing to sit the PPL examinations under the LAA's DTO must consult the Head of Training before committing themselves.

David Cockburn  
PCS Head of Training
